Artwork instructions + header template

Product specification

- Finished calendar size: 297 × 642 mm
- Header finished size: 297 × 210 mm
- Header artwork size: 301 × 214 mm (includes 2 mm bleed on each side)
- Calendar block: 297 × 430 mm, LV–ENG, 12 sheets, supplied ready-made by PrintOnline
- Binding: One metal spiral between the printed header and the calendar block
- Hanging eyelet: 1 eyelet in the top centre of the header, Ø 4 mm
- Header finishing: Double-sided lamination, by option
- Backing board: Galerie Art Silk 350 g/m², without print

Artwork requirements

- Prepare artwork only for the printed header. Do not include the calendar block in your file.
- Scale: 1:1.
- Color mode: CMYK.
- Raster images: minimum 300 DPI at final size.
- Preferred file format: PDF.
- Fonts must be outlined or embedded.
- Extend backgrounds and images to the bleed edge.
- Keep text, logos and other important elements at least 5 mm inside the trim line.
- Keep important elements away from the eyelet area and the spiral binding zone.
- Do not add crop marks, registration marks, color bars or other technical marks.
- Before exporting the final file, remove or hide all template guides if they are included in the working file.

Important

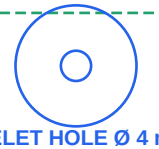

This PDF contains 2 pages: Page 1 = instructions, Page 2 = the header template at 1:1 size.

The calendar block is pre-made and supplied by PrintOnline. You only prepare the header design.

Please make sure the artwork size matches the selected product before sending the final file.

HEADER TEMPLATE

Artwork size: 301 × 214 mm | Finished size: 297 × 210 mm
