Template lines & artwork preparation

Three-wire quarterly wall calendar | Printed header only

HEADER 297 × 210 mm finished | 301 × 214 mm with bleed

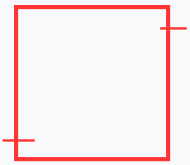

UNDERSTANDING THE COLORED LINES

BLUE LINE

Artwork size / bleed boundary

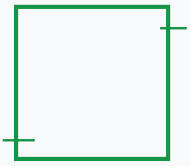

Extend background colors and images to this line to avoid white edges after trimming.

RED LINE

Trim line

This marks the final cutting edge of the printed calendar header.

GREEN LINE

Safe area

Keep all text, logos, and important design elements inside this line, away from trimming and binding.

BEFORE YOU EXPORT YOUR PDF

- Use the original template at 100% scale. Do not resize or move the colored guides.
- Design only the calendar header. The three monthly calendar blocks are preprinted.
- Extend backgrounds to the blue line; keep important content inside the green line.
- Allow space for the hanging eyelet and metal wire binding.
- Export as a print-ready CMYK PDF. Remove the colored guide lines from printed artwork.
